

LAW & TECHNOLOGY WORKSHOP

JULY 30 – AUGUST 1, 2009

GRAND HYATT DENVER

DENVER, COLORADO

*LIMITED FINANCIAL ASSISTANCE IS AVAILABLE FOR THIS WORKSHOP

The Law and Technology Workshop focuses on the use of modern courtroom software to improve the effectiveness of witness examination and argument skills. This workshop is an intense program where participants will practice using TrialDirector and PowerPoint to enhance their courtroom abilities. Attendees will sharpen their cross examination, direct examination, and closing argument skills with detailed application and use of these programs. Since many federal courtrooms are now "wired" to accommodate computer advances, and this technology has proven to be persuasive and forceful, participation in the Law and Technology Workshop is particularly valuable. Presentations and demonstrations will be supplemented by small group workshops. In the small groups, participants will receive hands-on guidance about how to apply the techniques demonstrated in plenary sessions to the facts of a mock case. Each participant will practice cross examination, direct examination and closing arguments using TrialDirector and PowerPoint technology.

For a complete list of training programs offered by the Office of Defender Services, Training Branch and registration/financial assistance information, please visit our website at WWW.FD.ORG

"I believe (the workshop) was a big help, because I would never have considered using a computer in court before this (program)."

- 2008 Law & Technology Workshop

"Very good - lots of practical advice and one-on-one work."

"Excellent seminar with wonderful presenters and teachers."

"Small groups and hands on experience were ideal for learning these programs."
