Introduction -

The CJA eVoucher system is a web-based solution for submission, monitoring, and management of all Criminal Justice Act (CJA) functions. The eVoucher program allows for:

- Online authorization requests by attorneys for service providers.
- Online voucher completion by the service provider or by the attorney acting for the service provider.
- Online voucher review and submission by the attorney.
- Online submission to the court.

Unless the court has indicated otherwise, attorneys are generally required to create and submit vouchers for their service providers and associates. The program includes the following modules:

Panel Management ——

- Allows attorneys to manage their own account information including address, phone, firm associations, and applicable CLE credits
- Allows for submission of holding periods or a specific amount of time taken off for medical leave, vacation, etc.

Voucher and Authorization Request Submission

- Authorization requests by attorneys for expert services
- Requests by attorneys for interim payment
- Supporting document uploads to vouchers or authorization requests
- Reports for attorneys to take an active part in monitoring costs
- Automatic email notification to attorney of approval or rejection of vouchers and authorization requests

Browser Compatibility —

- Windows: Chrome 62, Edge 16, Firefox 57
- Apple Macintosh: Safari 10.1

Court Appointment

You must first be established in eVoucher to gain access to the program by completing and submitting the CJA Attorney Information Form found at the court's website: txwd.uscourts.gov, CJA tab, Criminal Justice Act Forms page. The program automatically generates an email message confirming your eVoucher profile has been created and instructions on how to proceed.

Accessing the CJA eVoucher Program

Starting with version 6.10, you are required to use Login.gov to securely sign in to the eVoucher application. You must create a Login.gov account or use an existing Login.gov account and have a Single Login Profile (SLP) to access eVoucher.

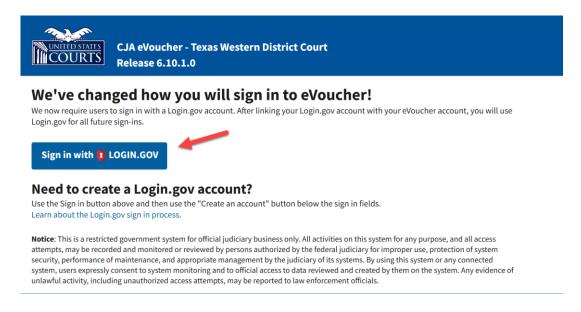

Note: Login.gov is a separate application from eVoucher. If you run into any issues, you must contact Login.gov support via their Help center page at https://www.login.gov/contact.

Follow the instructions in the next section to create your Login.gov account. Click the following links for additional information about Login.gov and helpful tips for creating your account. https://login.gov/what-is-login/ https://login.gov/what-is-login/ https://login.gov/create-an-account/

Your Login.gov account is now created, and you are directed to add an authentication method. Continue to the next section and follow the instructions to complete this requirement.

Note: Once your Login.gov setup is complete, you will ONLY use the email address you entered and the password you created in Login.gov to access eVoucher, so it is important to remember them.

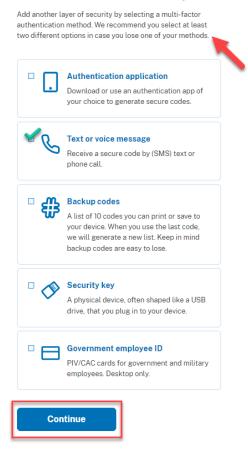

Adding an Authentication Method

Login.gov requires that you set up at least one authentication method when creating your account. However, it is recommended that you select **at least two authentication methods** on different devices so that you have an alternative way(s) to sign in to eVoucher if your primary method becomes unavailable.

Step 1

Select your first method of authentication, and then click **Continue**. Authentication methods include security keys, government employee IDs, authentication applications, text or voice messages, or backup codes.

Authentication method setup

Note: Every time you sign in to eVoucher you are required to authenticate, so make sure you use an authentication method that's easy for you to access. For these instructions, the **Text or voice message** option is selected.

To authenticate by text or voice message, in the **Phone number** field, enter your phone number, and then click the appropriate radio button to receive a one-time code either by text message or phone call. Click **Send code**.

Once your code has been successfully authenticated, you are prompted to add another authentication method (recommended). Click **Add another method** and follow the previous steps to create a second authentication method.

Note: It is recommended that you use a different device for your second authentication method, even if you choose the same setup option. For example, if you chose text or voice message as your first method, you can do the same for the second, as long as you use a different phone number.

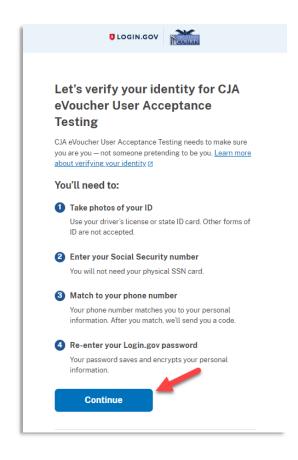

Identity Verification

To access eVoucher, you must verify your identity by uploading an acceptable form of identification (driver's license or state ID). This added security measure is to ensure that you are not someone else pretending to be you.

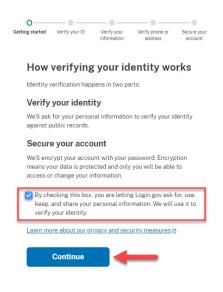

Note: This is a one-time identity verification; if you have already proven your identity through Login.gov, you are not required to do this again.

Step 1

If you've previously created a Login.gov account, you will be asked to verify your identity after signing in to Login.gov from the eVoucher sign-in page. If you're in the process of creating your Login.gov account, this step automatically appears after you've established your multi-factor authentication method(s). Click **Continue**.

Select the check box to allow Login.gov to ask for, use, keep, and share your personal information to verify your identity, and then click **Continue**.

Step 3

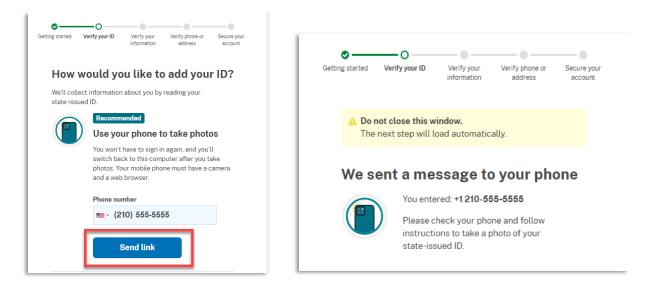

Choose an option for adding your identification information. One option is to upload photos of your ID from your phone, and the other option is to upload them directly from your computer.

Importing Service Entries

Attorneys using commercially available timekeeping and billing systems can directly import multiple service entries into a CJA-20/30 voucher from a file saved in comma-separated value (.csv) format.

As a best practice, the Import Service Entries feature should be started on a new or empty CJA-20 voucher. If you have service lines already entered on a voucher, they will be overwritten with the data imported from the .csv file.

Note: If you have an associate on your voucher and want to use the import service entry function, the lead attorney MUST import their entries first or they will overwrite the associate attorney's entries. Review the Importing Time job aid on the eVoucher training website for more detailed instructions for importing service entries with associates.

Step 1

Select the appropriate appointment and click the **Create** link for the CJA-20 voucher to open the document. In the Actions section on the left side of the page, click the **Import Service Entries (.csv)** link.

Reports and Case Management -

At the start of a case, it may be difficult for counsel or the court to know whether a case has the potential to exceed the statutory maximum allowed for representation.

Therefore, attorneys are encouraged to monitor the status of funds, attorney hours, and expert services by reviewing the reports provided in the CJA eVoucher program. Items to remember:

- Viewable reports appear in the left review panel.
- Each panel, depending on the document you are viewing, can have different reports available.
- Each report can have a short description of the information received when viewing that report.
- The two main reports are the Defendant Detail Budget Report and the Defendant Summary Budget Report.

A confirmation screen appears, indicating the previous action was successful and the voucher has been submitted. Click the **Home Page** link to return to the home page. Click the **Appointment Page** link if you wish to create an additional document for this appointment.

Appendix A: Correcting Errors in Your .csv File

If your import fails, you must correct errors in the original .csv file before attempting another import.

Step 1

A message appears at the top of the page, indicating the number of errors found. Click the **View Report** link to view errors.

Step 2

The Errors Only report opens by default, with the errors in the file highlighted. Review the error report and correct the original .csv file.

Note: Click the **Full Report** radio button to view an error report that includes all imported service lines.

Step 3

Return to the Services page, click the **try again** link, and then follow steps 4–5 in the Importing Service Entries on Previously Created CJA-20s section to attempt the import again.

Attorneys should still review the voucher to ensure that entries are correct prior to submission to the court. For the remaining tabs of the CJA-20 or CJA-30 voucher, please see instructions for those documents.

Appendix B: Creating the Excel File for Import

Once you begin the process of importing your service entries to a CJA-20 or CJA-30 voucher, sample spreadsheets are available to download on the Services page. These sample spreadsheets are in Excel format that must be saved in .csv format.

For the .csv file to be successfully uploaded into and accepted by eVoucher, it must contain a header row with specific column headers, as seen below. The header row contains four mandatory column headers (Date, Hours, Description, Service Type) and two optional column headers (Doc. #, Pages). The Doc. # and Pages fields may be included in the header row; however, they are not required unless data is provided.

If the header row contains service entry information instead of headers, the data in that row will be ignored and won't import into your voucher. Sample spreadsheets containing the correct column headers and service type values for each voucher type are available in the online help.

Note: Time entries containing values greater than a single decimal place are automatically rounded up or down to the nearest tenth. For example, 0.125 is rounded down to 0.1, and 0.75 is rounded up to 0.8.

Appendix C: Converting the Excel File to .csv Format

Most commercially available spreadsheet applications allow you to save in .csv format. For a file saved in Excel format, follow these steps to create your .csv import file.

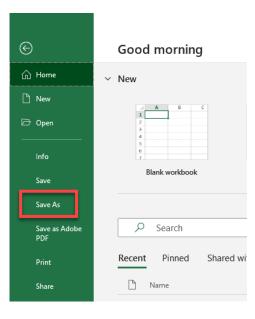

In your Excel file, click the File tab.
