STANDING ORDER GOVERNING PROCEEDINGS (OGP) 4.0—PATENT CASES

This OGP governs proceedings in all patent cases pending before the undersigned and takes effect upon entry in all patent cases, except where noted. If there are conflicts between this OGP and prior versions in existing cases that the parties are unable to resolve, the parties are encouraged to contact the Court for guidance via email to the Court’s law clerk.

Parties should generally email any inquiries to the Court’s law clerk. The Court’s voicemail is not checked regularly. Email is the preferred contact method.

Email for the Court’s law clerk: TXWDml_LawClerks_JudgeAlbright@txwd.uscourts.gov.

I. GENERAL DEADLINES

The following deadlines apply:

1. Patent cases shall be set for a Rule 16 Case Management Conference (CMC) in accordance with the Court’s Standing Order Regarding Notice of Readiness in Patent Cases.
2. Not later than 7 days before the CMC. The plaintiff shall serve preliminary infringement contentions chart setting forth where in the accused product(s) each element of the asserted claim(s) are found. The plaintiff shall also identify the priority date (*i.e.* the earliest date of invention) for each asserted claim and produce: (1) all documents evidencing conception and reduction to practice for each claimed invention, and (2) a copy of the file history for each patent in suit.
3. Two weeks after the CMC. The parties shall file a **motion** to enter an agreed Scheduling Order that generally tracks the exemplary schedule attached as Exhibit A to this OGP, which should suit most cases. If the parties cannot agree, the parties shall submit a joint motion for entry of a Scheduling Order briefly setting forth their scheduling disagreement. Absent agreement of the parties, the plaintiff shall be responsible for the timely submission of this and other joint filings. When filing any Scheduling Order, the parties shall also jointly send an editable copy to the Court’s law clerk.
4. Seven weeks after the CMC. The defendant shall serve preliminary invalidity contentions in the form of (1) a chart setting forth where in the prior art references each element of the asserted claim(s) are found, (2) an identification of any limitations the defendant contends are indefinite or lack written description under section 112, and (3) an identification of any claims the defendant contends are directed to ineligible subject matter under section 101. The 101 contention shall (1) identify the alleged abstract idea, law of nature, and/or natural phenomenon in each challenged claim; (2) identify each claim element alleged to be well-understood, routine, and/or conventional; and (3) to the extent not duplicative of 102/103 prior art contentions, prior art for the contention that

claim elements are well-understood, routine, and/or conventional. The defendant shall also produce (1) all prior art referenced in the invalidity contentions, and (2) technical documents, including software where applicable, sufficient to show the operation of the accused product(s).¹

II. DISCOVERY

Except with regard to venue, jurisdictional, and claim construction-related discovery, all other discovery shall be stayed until after the *Markman* hearing. Notwithstanding this general stay of discovery, the Court will permit limited discovery by agreement of the parties, or upon request, where exceptional circumstances warrant. For example, if discovery outside the United States is contemplated, the Court is inclined to allow such discovery to commence before the *Markman* hearing.

Following the *Markman* hearing, the following discovery limits apply. The Court will consider reasonable requests to adjust these limits should circumstances warrant.

1. Interrogatories: 30 per side²
2. Requests for Admission: 45 per side
3. Requests for Production: 75 per side
4. Fact Depositions: 70 hours per side (for both party and non-party witnesses combined)
5. Expert Depositions: 7 hours per report³

Electronically Stored Information. As a preliminary matter, the Court will not require general search and production of email or other electronically stored information (ESI), absent a showing of good cause. If a party believes targeted email/ESI discovery is necessary, it shall propose a procedure identifying custodians and search terms it believes the opposing party should search. The opposing party can oppose, or propose an alternate plan. If the parties cannot agree, they shall contact the Court to discuss their respective positions.

III. DISCOVERY DISPUTES

Procedure. A party may not file a Motion to Compel discovery unless: (1) lead counsel have met and conferred in good faith to try to resolve the dispute, and (2) the party has contacted the Court's law clerk to summarize the dispute and the parties' respective positions. When

¹ To the extent it may promote early resolution, the Court encourages the parties to exchange license and sales information, but any such exchange is optional during the pre-*Markman* phase of the case.

² A "side" shall mean the plaintiff (or related plaintiffs suing together) on the one hand, and the defendant (or related defendants sued together) on the other hand. If the Court consolidates related cases for pretrial purposes, with regard to calculating limits imposed by this OGP, a "side" shall be interpreted as if the cases were proceeding individually. For example, in consolidated cases the plaintiff may serve up to 30 interrogatories on each defendant, and each defendant may serve up to 30 interrogatories on the plaintiff.

³ For example, if a single technical expert submits reports on both infringement and invalidity, he or she may be deposed for up to 14 hours in total.

contacting the Court’s law clerk for discovery or procedural disputes, the following procedures shall apply.

If the parties remain at an impasse after lead counsel have met and conferred, the requesting party shall email a summary of the issue(s) and specific relief requested to all counsel of record. The summary of the issue shall not exceed 500 words for one issue or a combined 1000 words for multiple issues. The responding party has three business days thereafter to provide an email response, also not to exceed 500 words for one issue or a combined 1000 words for multiple issues. The specific relief requested should propose the exact language to be issued in a court order for each part of every disputed issue. The specific relief requested does not count toward word limits. The Court encourages the parties to provide their submission in a table format which identifies the disputed issues and specific relief requested.

Example:

Issue	Requesting Party’s Position	Responding Party’s Position
RFP 1: All sale records of the Product.	Responding Party didn’t produce anything. Responding Party keeps its sales records in a sales database. Relief: Order that “Responding Party must produce a copy of the sales database within 7 days.”	We found no sales records of the Product in the sales database. Relief: Find that “no documents responsive to RFP 5 exist” and deny Requesting Party’s relief.
ROG 5: Identify all employees who worked on the Product.	Responding Party only identified a subset of the employees. Relief: Order that “Responding Party is compelled to fully respond to ROG 5 by identifying the names and locations of the remaining employees who worked on Product by [date].”	We identified the relevant employees. The other employees are not relevant, and it is too burdensome to identify every employee. Relief: Order that “Responding Party need not identify any other employees in response to ROG 5.”

Once the opposing party provides its response, the requesting party shall email the summaries of the issues to the Court’s law clerk with opposing counsel copied. If a hearing is requested, the parties shall indicate in the email whether any confidential information will be presented. Thereafter, the Court will provide guidance to the parties regarding the dispute or arrange a telephonic or Zoom hearing. The hearing shall proceed in the sequence of issues charted.

Written Order.⁴ Within 7 days of the discovery hearing, the parties shall email a jointly proposed order to the Court’s law clerk that includes the summaries of the issues, relief

requested, and the parties' understanding of the Court's ruling. If one party disputes the language of the order, then that party shall send an editable version of the proposed order to the Court's law clerk with the disputed language in tracked changes.

IV. VENUE DISCOVERY

The Court hereby establishes the following presumptive limits on discovery related to venue and jurisdiction: each party is limited to 5 interrogatories, 10 Requests for Production, and 10 hours of deposition testimony. The time to respond to such discovery requests is reduced to 20 days. If a party believes these limits should be expanded, the party shall meet and confer with opposing counsel and if an impasse is reached, the requesting party is directed to contact the Court for a telephonic hearing.

Venue or jurisdictional discovery shall be completed no later than ten weeks after the filing of an initial venue motion. Parties shall file a notice of venue or jurisdictional discovery if the discovery will delay a response to a motion to transfer.

V. MOTIONS FOR TRANSFER

This section applies to all cases filed on or after the effective date of this OGP. Otherwise, the Second Amended Standing Order Regarding Motions for Inter-District Transfer controls earlier-filed cases.

A motion to transfer anywhere may be filed within three weeks after the CMC or within eight weeks of receiving or waiving service of the complaint, whichever is later. Thereafter, a movant must show good cause for any delay and seek leave of court. The deadline for plaintiff's response is two weeks after the completion of venue or jurisdictional discovery. The deadline for Defendant's reply is two weeks after the filing of the response.

The following page limits and briefing schedule apply to motions to transfer:

- a. Opening – 15 pages
- b. Response – 15 pages, due 14 days after the completion of venue or jurisdictional discovery, if such discovery is conducted; otherwise, 14 days after the Opening brief
- c. Reply – 5 pages, due 14 days after the Response brief

All parties who have filed a motion to transfer shall provide the Court with a status report indicating whether the motion has been fully briefed at each of the following times: 1) when the motion to transfer becomes ready for resolution, 2) at four weeks before the *Markman* hearing date if the motion to transfer remains unripe for resolution and 3) if there are multiple *Markman* hearings, the status report is due six weeks before the first scheduled *Markman* hearing. In addition, if by one week before the *Markman* hearing the Court has not ruled on any pending motion to transfer, the moving party is directed to email the Court's law clerk (and the technical advisor, when appointed), and indicate that the motion to transfer is pending.

If a motion to transfer to another district remains pending, the Court will either promptly resolve the pending motion before the *Markman* hearing or postpone the *Markman* hearing. Whenever a *Markman* hearing is postponed pursuant to this OGP (e.g., because the transfer motion has not yet ripened or only recently ripened), Fact Discovery will begin one day after the originally scheduled *Markman* hearing date.

VI. MEET AND CONFER REQUIREMENT FOR EARLY MOTIONS TO DISMISS INDIRECT AND WILLFUL INFRINGEMENT

Any party seeking to dismiss claims of indirect or willful infringement before fact discovery must first meet and confer with the opposing party to discuss dismissing those allegations without prejudice, with leave to re-plead those allegations with specificity, if supported by a good faith basis under Rule 11, within three months after fact discovery opens while permitting fact discovery on indirect and willful infringement during those three months. The party moving to dismiss must attach a certification of compliance with this OGP to its motion to dismiss.

An agreement to dismiss under this section shall be filed as a joint notice instead of as a motion.

VII. INTERIM PROTECTIVE ORDER

The Court provides a Model Protective Order on its website. Pending entry of the final Protective Order, the Court issues the following interim Protective Order to govern the disclosure of confidential information:

If any document or information produced in this matter is deemed confidential by the producing party and if the Court has not entered a protective order, until a protective order is issued by the Court, the document shall be marked “confidential” or with some other confidential designation (such as “Confidential – Outside Attorneys’ Eyes Only”) by the disclosing party and disclosure of the confidential document or information shall be limited to each party’s outside attorney(s) of record and the employees of such outside attorney(s).

If a party is not represented by an outside attorney, disclosure of the confidential document or information shall be limited to one designated “in house” attorney, whose identity and job functions shall be disclosed to the producing party 5 days prior to any such disclosure, in order to permit any motion for protective order or other relief regarding such disclosure. The person(s) to whom disclosure of a confidential document or information is made under this OGP shall keep it confidential and use it only for purposes of litigating the case.

VIII. CLAIM CONSTRUCTION

Limits for Number of Claim Terms to be Construed

Terms for Construction. Based on the Court’s experience, the Court believes that it should have presumed limits on the number of claim terms to be construed. The “presumed limit” is the maximum number of terms that each side may request the Court to construe without further leave of Court. If the Court grants leave for additional terms to be construed, depending on the

complexity and number of terms, the Court may split the *Markman* hearing into multiple hearings.

The presumed limits based on the number of patents-in-suit are as follows:

1-2 Patents	3-5 Patents	More than 5 Patents
8 terms	10 terms	12 terms

When the parties submit their joint claim construction statement, in addition to the term and the parties' proposed constructions, the parties should indicate which party or side proposed that term, or if that was a joint proposal.

Briefing Procedure and Page Limits

The Court will require non-simultaneous *Markman* briefing with the following default page limits. When exceptional circumstances warrant, the Court will consider reasonable requests to adjust these limits. These page limits shall also apply collectively for coordinated and consolidated cases; however, the Court will consider reasonable requests to adjust page limits in consolidated cases where circumstances warrant. The Court has familiarity with the law of claim construction and encourages the parties to forego lengthy recitations of legal authorities and to instead focus on the substantive issues unique to each case.

Unless otherwise agreed to by the parties, the default order of terms in the parties' briefs shall be based on 1) the patent number (lowest to highest), the claim number (lowest to highest), and order of appearance within the lowest number patent and claim. An example order may be as follows:

1. 10,000,000 Patent, Claim 1, Term 1
2. 10,000,000 Patent, Claim 1, Term 2 (where Term 2 appears later in the claim than does Term 1)
3. 10,000,000 Patent, Claim 2, Term 3 (where Term 3 appears later in the claim than does Terms 2 and 3)
4. 10,000,001 Patent, Claim 1, Term 4
5. 10,000,001 Patent, Claim 3, Term 5
6. 10,000,002 Patent, Claim 2, Term 6

If that the same or similar terms appear in multiple claims, those same or similar terms should be ordered according to the lowest patent number, lowest claim number, and order of appearance within the patent and claim.

Brief	1-2 Patents	3-5 Patents	More than 5 Patents
Opening (Defendant)	20 pages	30 pages	30 pages, plus 5 additional pages for each patent over 5 up to a maximum of 45 pages

Response (Plaintiff)	20 pages	30 pages	30 pages, plus 5 additional pages for each patent over 5 up to a maximum of 45 pages
Reply (Defendant)	10 pages	15 pages	15 pages, plus 2 additional pages for each patent over 5 up to a maximum of 21 pages
Sur-Reply (Plaintiff)	10 pages	15 pages	15 pages, plus 2 additional pages for each patent over 5 up to a maximum of 21 pages

After briefing concludes, the parties shall file a Joint Claim Construction Statement and email an editable copy to the Court’s law clerks.

Technology Tutorials and Conduct of the *Markman* Hearing

Technology tutorials are optional, especially in cases where a technical advisor has been appointed. If the parties submit one, the tutorial should be in electronic form, with voiceovers, and submitted at least 10 days before the *Markman* hearing. In general, tutorials should be: (1) directed to the underlying technology (rather than argument related to infringement or validity), and (2) limited to 15 minutes per side. The tutorial will not be part of the record and the parties may not rely on or cite to the tutorial in other aspects of the litigation.

The Court generally sets aside one hour for the *Markman* hearing; however, the Court is open to reserving more or less time, depending on the complexity of the case and input from the parties. As a general rule, the party opposing the Court’s preliminary construction shall go first. If both parties oppose the Court’s preliminary construction, the plaintiff shall typically go first.

The Court will provide preliminary constructions to the parties ahead of the *Markman* hearing. At the *Markman* hearing, the Court encourages oral arguments that fine-tune the preliminary constructions over arguments repeated from the briefs.

IX. GENERAL ISSUES

1. The Court will entertain reasonable requests to streamline the case schedule and discovery. Parties should contact the Court’s law clerk when a change might help streamline the case.
2. The Court is generally willing to extend the response to the Complaint up to 45 days if agreed by the parties. However, longer extensions are disfavored.
3. Speaking objections during depositions are improper. Objections during depositions shall be stated concisely and in a nonargumentative and nonsuggestive manner. Examples of

permissible objections include: “Objection, leading,” “Objection, compound,” “Objection, vague.” Other than to evaluate privilege issues, counsel should not confer with a witness while a question is pending. Counsel may confer with witnesses during breaks in a deposition without waiving any otherwise applicable privilege.

4. Plaintiff must file a notice informing the Court when an IPR is filed, the expected time for an institution decision, and the expected time for a final written decision, within two weeks of the filing of the IPR.
5. After the trial date is set, the Court will not move the trial date except in extreme situations. If a party believes that the circumstances warrant continuing the trial date, the parties are directed to contact the Court’s law clerk.
6. The Court does not limit the number of motions for summary judgment (MSJs), *Daubert* motions, or Motions *in limine* (MIL) a party may file. However, absent leave of Court, the cumulative page limit for opening briefs for all MSJs is 40 pages per side, for all *Daubert* motions is 40 pages per side, and for all MILs is 15 pages per side. Each responsive MSJ, *Daubert*, and MIL brief is limited to the pages utilized in the opening brief or by the local rules, whichever is greater; and the cumulative pages for responsive briefs shall be no more than cumulative pages utilized in the opening briefs. Reply brief page limits shall be governed by the local rules.
7. For *Markman* briefs,⁵ summary judgment motions, and *Daubert* motions, the parties shall jointly deliver to Chambers one double-sided paper copy of the Opening, Response, and Reply briefs, omitting attachments, at least 10 days before the hearing. Absent agreement to the contrary, the plaintiff shall be responsible for delivering a combined set of paper copies to chambers. Each party shall also provide an electronic copy of the briefs, exhibits, and the optional technology tutorial via USB drive. For *Markman* briefs, the parties should also include one paper copy of all patents-in-suit and the Joint Claim Construction Statement. If the Court appoints a technical advisor, each party shall deliver the same to the technical advisor, also 10 days before the hearing.
8. When filing the Joint Claim Construction Statement or proposed Protective Order, the parties shall also email the law clerk a Word version of the filed documents.
9. For all non-dispositive motions, the parties shall submit a proposed Order. The proposed Order shall omit the word “Proposed” from the title.
10. Unless the Court indicates otherwise, the following Zoom information shall be used for all non-private hearings. The public is allowed to attend non-private hearings. Any party who intends to present confidential information shall email the Court’s law clerk to request a private Zoom setup.

⁵ But if the Court appoints a technical advisor for claim construction, the parties do not need to provide a copy of the *Markman* briefs to the Court.

Defendant shall also produce (1) all prior art referenced in the invalidity contentions, and (2) technical documents, including software where applicable, sufficient to show the operation of the accused product(s).

⁶ The parties may amend preliminary infringement contentions and preliminary invalidity contentions without leave of court so long as counsel certifies that it undertook reasonable efforts to prepare its preliminary contentions and the amendment is based on material identified after those preliminary contentions were served and should do so seasonably upon identifying any such material. Any amendment to add patent claims requires leave of court so that the Court can address any scheduling issues.

6 weeks after <i>Markman</i> hearing	Deadline to add parties.
8 weeks after <i>Markman</i> hearing	Deadline to serve Final Infringement and Invalidity Contentions. After this date, leave of Court is required for any amendment to infringement or invalidity contentions. This deadline does not relieve the parties of their obligation to seasonably amend if new information is identified after initial contentions.
16 weeks after <i>Markman</i> hearing	Deadline to amend pleadings. A motion is not required unless the amendment adds patents or patent claims. (Note: This includes amendments in response to a 12(c) motion.)
26 weeks after <i>Markman</i>	Deadline for the first of two meet and confers to discuss significantly narrowing the number of claims asserted and prior art references at issue.
